

Lesson 44: Choosing & Scoping Your IA — Practice Worksheet

Name: _____ Date: _____

Attempt every question. Show your working. The sections increase in difficulty.

Section 1 — Warm-up (foundation)

1. What percentage of the final grade is the Mathematics IA?
2. Roughly how long should the IA be?
3. In one word, what makes a strong IA topic?
4. Name one feature of a weak IA topic.
5. Should an IA be an essay or an investigation?
6. Name one way you could collect your own data for an IA.

Section 2 — Core practice

7. Turn the interest 'music' into a focused IA question.
8. Turn the interest 'sport' into a focused IA question.
9. Why is 'the history of pi' a weak IA topic?
10. Why is 'Statistics' too broad as an IA title?
11. Rewrite 'functions' as a focused, personal exploration question.

Section 3 — Challenge & exam-style

- 12.** A student proposes the title 'Calculus'. Explain why it is unsuitable and rewrite it as a focused question.
- 13.** Suggest a focused IA question linked to travel, and state what maths it would use.
- 14.** Explain the difference between a topic that is too small and one that is well-scoped.
- 15.** List three checks for a good IA topic.
